EVIDENCES OF HIS SUCCESS IN CURING

CATARRH,

And other Chronic Diseases that have Resisted the Ordinary Modes of Treatment.

Letter from B. F. Murdock, Esq., Editor of the San Jose Daily Patriot.

SAN FRANCISCO, CAL., NEW YEAR'S DAY, 1871.

DR. ABORN, San Jose—Dear Sir: I have felt that our business and social relations for the last ten months were of such a character as to warrant me in addressing you this testimonial of my esteem for you, professionally and socially. Your remarkable success in the treatment of my son, Frank, a youth just entering on manhood, who had been afflicted for some time with an obstinate catarrh and throat disease, was but an additional proof of the distinguished reputation you had achieved in your profession before your advent to California, and disposed me to repose that reliance upon your scientific skill in the treatment of your specialties, which was so fully sustained by the success of our acquaintances in all cases under your treatment in this city and neighborhood.

Allow me, also, to express my thanks for the liberal and gentlemanly spirit you displayed in all of our business relations. As the proprietor of the San Jose *Daily Patriot*, I published for you many advertisements, all of which were promptly paid for, and in a manner peculiarly agreeable.

I do not know whether this letter will be of any use to you, but I have felt impelled to write it, as well as to assure you of my sincere esteem and cordial wishes for your happiness and prosperity.

Respectfully yours, etc.,
B. F. MURDOCK,
Editor and Proprietor *San Jose Daily Patriot*.

Letter from Wm. B. Lake, Esq.

SAN FRANCISCO, January 10, 1871.

DR. ABORN—Dear Sir: Permit me to add my testimony to the numerous public assurances you have received while here, of your skill and success in the treatment of those diseases which you make specialties in your practice.

My boy, now eleven years of age, had been seriously troubled for several years, with catarrh, when put under your treatment; when he was immediately relieved, and has been steadily improving ever since, until now he seems almost entirely recovered, and we feel we owe to your skill his rapid convalescence, and I assure you your name will ever be held in grateful remembrance by your young patient, and his parents and friends.

Yours respectfully,
WM. B. LAKE,
No. 1028 Hyde Street, San Francisco.

LAW OFFICE OF R. P. & JAMES CLEMENT,
No. 61 Exchange Building,
SAN FRANCISCO, CAL., January 22, 1871.

DR. ABORN—Dear Sir: Understanding that you are about terminating your residence and practice in this city, I have thought that possibly you might be pleased to know that the little school girl, Mary Morris, whom you treated some months ago at my request, and who, you will remember, was nearly deaf and seriously afflicted with some bronchial trouble when she went to you, is now ENTIRELY CURED, both of deafness and bronchial affection, and declares that she was virtually cured on her first visit to you. She and her parents are very grateful to you, and think that it is wholly due to your skill that her hearing and health are restored.

Yours truly,
R. P. CLEMENT.

Card from Charles N. Fox, Esq.

[Office of Campbell, Fox & Campbell, Attorneys and Counselors at Law, No. 528 California street.]

SAN FRANCISCO, Feb. 17th, 1870.

Were it not for the good which I hope it may have done to suffering humanity, by informing them where they could find relief, I should regret having given Dr. Aborn my little testimonial of the tenth of January, for the demands made upon my time, in answering inquiries in regard to him, have been more numerous than profitable to me; and still they come.

To save the necessity for further personal application, let me say to those who care for my opinion that time has only strengthened my first favorable opinion of Dr. Aborn, and my confidence in the permanency of the cure effected by him. All my difficulty arose from catarrh, which had become of a serious character, affecting the hearing and the throat, giving me at times acute pains, and at others rumbling sounds in the ears, frequent headaches, and so seriously affecting the bronchial tubes as to sometimes disable me from public speaking. It is also gone, and the change was produced, not by any species of charlatanism, as many suspect of the Doctor, nor by the absurd practice of putting medicines into the stomach which was not affected, but by the skillful application of medicinal remedies directly to the parts which were diseased. I have found the Doctor a gentleman in his intercourse and business, and the judgment that I have formed of him professionally is, that he is a regular physician, thoroughly acquainted with the anatomy of the human body, and possessing a remarkable degree of skill in the treatment of those diseases which he makes his specialty.

CHAS. N. FOX.

Another Wonderful Cure of Asthma and Bronchitis, after all other Methods had Failed.

SAN JOSE, March 6, 1870.

This is to certify, that I have been afflicted for over three years with Asthma and Bronchitis, and had tried every means in my power to effect a cure, and was told by my family physician (an honest and good doctor) that I could not be cured; and I became so weak that I could scarcely walk up a flight of stairs, and I happened to see a card from Lawyer Houghton, stating that he was being treated by Dr. Aborn, No. 22 Kearny street, San Francisco, and was getting great relief, and I thought I would go and see the Doctor; but I had little hope of getting relief, much less a cure. That was about the fifteenth of January, 1870, and to-day I claim to be a well man. I am fifty-nine years old. My mother and sister died with the same disease. I send this card, unsolicited, to Dr. Aborn, thinking that it might meet the eye of some of my acquaintances that might be suffering in the same way.

J. W. HARDWICK.

DR. ABORN

Has WONDERFUL SUCCESS in curing CHRONIC DISEASES after the usual routine of the profession have failed, and the many testimonials in his possession from prominent and influential men who are well known will substantially prove.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to any painful or unpleasant operations; his treatment is mild, and safe for the most delicate child. The afflicted are hereby informed, that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocation.

DR. ABORN
ON
CATARRH!!

[DISEASE TENDING TO CONSUMPTION.]

This is a chronic affection of the mucous membrane of the nostrils or the throat, originating in irritation or inflammation, and attended by more or less discharge. It is one of the most common, most disgusting, and finally most destructive of diseases incident to the variable climate of our northern latitude.

In its early stages catarrh fails to attract the patient's attention, so insidious is its approach. This is an unfortunate circumstance, because the most favorable period for treatment is thus unimproved, and because of the peculiar disposition of this disease to extend upward to the frontal sinuses, backward through the Eustachian tubes to the middle ears, and down through the larynx, trachea, and bronchia, to the air cells of the lungs.

The discharge from the affected part is at first a clear fluid; which may escape observation, unless it chance to be of a more than usual acrid character. As time goes on this gives place to a fluid that is thicker and of a yellowish green color, and still later this may be succeeded by thick flakes or scales.

In all the more advanced stages the discharges are generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his sense of smell remains. This annoyance from the odor becomes almost beyond endurance, when, as sometimes happens, the delicate bones of the nose become diseased.

Some cases early assume the character of Dry Catarrh. There is then a feeling of uneasiness, heat and stiffness in the nostrils, which are often (one or both of them) closed by thickening of the mucous membrane, and thus a difficulty of breathing becomes a prominent symptom.

On examining the nostrils in Chronic Catarrh, with instruments specially adapted to that purpose, we find their lining membrane thickened and of a deeper color than in health. There are seen little points of ulceration, upon which the secretion becomes hardened and forms crusts. When these are picked off the diseased surface is irritated, and frequently bleeds profusely.

In each case of Catarrh the prominent symptoms are determined by the direction in which the disease extends. If this be upward there may be pain over and between the eyes, obstruction of the lachrymal ducts, causing the tears to flow over the cheeks, and possibly ophthalmia—inflammation of the eyes. If backward, there will be thickening of the walls of the Eustachian tubes, and consequent tendency to their obstruction, inflammation of the middle ear, buzzing sounds in the head, and impairment of hearing. When the extension is downward, the voice becomes hoarse or whispering and unmanageable; cough comes on, with expectoration and emaciation, to be followed too often by Consumption and Death.

In cases where the bones of the nose become diseased, not only is the offensiveness of the breath increased, but there is a liability to serious personal deformities among which are flattening of the nose.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion, and loss of appetite. Debility, paleness, lassitude, headache and disturbance of mind soon follow. In some instances the mental affection is one of irritability, the patient being suddenly annoyed by all the little perplexities of life. In others, the prominent feeling is that of the melancholy or depression of spirits, when the invalid can see no hope for himself or his affairs.

Allusion has been made to the extension of Catarrh by continuity of surface along the natural air passages to the substance of the lungs; thus causing Consumption and Death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions of the diseased surface. By such air the blood cannot be properly purified and made fit to impart healthy vigor in its unending circuit to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted to make early application for relief.

The treatment of Catarrh is in part constitutional, whereby the energies of the whole system are called to aid in expelling its destructive enemy. It is in part local, whereby the discharge is made less offensive, diminished and finally arrested, and whereby the ulcerated surface is healed and restored to its normal condition.

By means of new and ingenious apparatus, Dr. Aborn is able in Catarrh and all other affections of the respiratory organs, to apply his remedies directly to the desired localities. Treatment is thus made more efficient as well as less disagreeable. In many cases the first applications of the topical treatment will change the character of the disease and materially purify the breath.

A FEW REMARKS ON

DISEASES OF THE EAR.

It is a well known fact that Diseases of the Ear are among the most frequent and most tedious affections to which the human system is exposed, and that Deafness, or impairment of the hearing, is a lamentable misfortune alike to the public instructor, the military officer, and the government official, as each is obliged to yield his position to another. Equally unfortunate is the loss of hearing to mothers, who have the moral correction of the speech of offspring; and to that offspring in after life, thus cut off from the principal source through which both moral training and intellectual development are conveyed. And yet this function of hearing—the most useful and pleasure-giving of all our senses—is frequently sacrificed by want of attention to the early symptoms of disease, when judicious treatment could readily affect a cure.

True, treatment is often deferred because there is no manifest pain, and hence no danger is anticipated; or because patients are taught by physicians to believe that their disease is not remediable; or because this department of medicine has been neglected, and physicians, though skilled in other departments, know but little of aural surgery, and hence patients are generally discouraged by them.

In our increased and extended anatomical and physiological knowledge, all just grounds for want of confidence now have entirely ceased to exist, as no department in medical science is more thoroughly and successfully treated than is this branch by Dr. Aborn.

The number of ear patients is constantly increasing with the increase of population, as they originate in so many diseases incident to childhood—as measles, scarlet fever, whooping-cough, &c., &c.

The latter disease is particularly prone to give rise to affections of the ear. Among the most troublesome (besides impairment of hearing) is one called otorrhœa, "a running from the ear," not strictly a disease, but a symptom of a diseased condition, which often becomes exceedingly offensive.

If this discharge continues without limit, which it is prone to do, it is liable to destroy the "drum" and delicate ossicles of the ear, and finally to produce caries of the bony walls. The popular notion that stopping this discharge endangers some other organ, or the life of the patient, should be corrected. There is far more peril in letting it alone than in curing it. While it continues, the discharge is a constant drain upon the constitution; but the health, on the contrary, is vastly improved by its eradication. Its persistence often indicates a scrofulous diathesis in the system.

Certainly, it is safe to change that morbid condition; to improve the general system; to remove the cause of disease, and the effect then ceases without danger. Nay, more: in the cure of otorrhœa, as in ozæna, or a "running from the nose," the consumptive tendency is also cured. Thus rational cure never substitutes one disease for another—never compromises the laws of life.

Now, in order to eradicate this common prejudice, and disprove the false conceptions of both patient and physician, I have repeatedly published, during a series of years, certificates of cures of deafness, and from persons of high social, clerical and political position, so many indisputable facts of the success of my improved method of treating cases of ear disease often of seemingly hopeless character.

Terrible Steamboat Explosion Near Mobile.

MOBILE, Ala., August 28.—The low-pressure steamer *Ocean Wave* exploded her boiler at half past 5 o'clock on Sunday evening, at the wharf at Point Clear. About two hundred excursionists were on board, 50 or 60 of whom were killed and wounded. Some bodies were brought here last night. Others will be brought to-day. Efforts are being made for the recovery of the bodies of drowned. The cause of the disaster is not ascertained. Of seven persons comprising a Creole family, six were killed. The Captain, engineer and pilot were killed. Only three officers escaped.

Later—The *Ocean Wave* left this city Sunday morning with 200 persons for an excursion to Fish river, 20 miles from this city. On the return trip the boat reached Point Clear at 5 P. M., and made fast. The band and part of the passengers went ashore. After the lapse of half an hour, the whistle was blown and all returned on board. They had just done so when the boiler exploded with great force. Fragments of timbers of the boat and metal of the boiler were blown in every direction. The forward part of the cabin was carried away. The smokestack fell on the after deck and crushed it. The boat almost immediately sunk, and her bow is now submerged. About 60 or 70 persons are killed or injured by the explosion. So far the bodies of 19 dead, 8 of whom were ladies, have been recovered. 25 of the wounded were brought to the city. One of them, a girl, has since died.

The scene was appalling and heart-rending. Wider grief has seldom been witnessed. Many of the passengers were children. Captain Eaton swam some distance with both legs broken. A boat reached him just too late, and he went down. The two pilots and all the firemen were killed. The engineer's wife is injured. It is impossible to correctly estimate the loss of lives. Some suppose at least 30 or 40 persons are still buried in the wreck or at the bottom of the bay. A diver has gone to the scene. The disaster has cast a gloom over the city, and universal sadness prevails. Streets are crowded with people, and the excitement is intense.

The *Ocean Wave* has been some time considered an unsafe boat. The appearance of the boiler indicated that it yielded through rottenness, and it had been torn apart in a long seam. Had it exploded with greater violence, the destruction of life would have been more general. The force of the explosion was upwards and forward.

The Boston Accident.

NEW YORK, August 28.—All the journals are discussing the Boston accident. The unanimous opinion is that the case demands such investigation as will result in fixing the responsibility for the catastrophe, visiting the guilty with the severest penalties of the law. The *World* says of the accident: "If this be not murder most foul, most unnatural, most clamorous to God and man for justice, then it were as well to strike, but at once from all legalization, statutes which pretend to hedge with pity and with power the lives of indigent men."

Inquest over the Dead.

BOSTON, August 28.—An inquest was held to-day on the victims of the Revere disaster. The Conductor of the accommodation train was the only witness called. He testified that his train was thirty minutes behind time. The time of the trains was deranged by large numbers attending a camp-meeting in the vicinity. It was the duty of the train following to keep a lookout. The passengers had alighted at Revere. He had given the order to start, when a man on the platform exclaimed, "a train is coming!" He jumped across the track and swung his lantern, but had barely time to do so when the express train crashed into his, running at the time thirty-five miles an hour. He started from Boston behind time with the understanding that the Superintendent would take care of the train following. From his testimony it does not appear that the road has any definite rules for running trains, as be generally stated that everything was understood. The inquest adjourned till to-morrow.

Money Matters in New York.

NEW YORK, Aug. 28.—Money is abundant at 2 @2½ per cent. Western Union, 62½; Quicksilver, 13; Mariposa 6½; Preferred 6; Wells, Fargo 50½; Pacific Mail 52½.

The ocean yacht race which was to start from Sandy Hook this afternoon, is postponed until October 2d.

MADRID, Aug. 28.—King Amadeus and the Crown Prince of Italy reviewed the troops yesterday.

An amnesty for political offences will be issued in October.

The Empress Eugenie is expected here in a few days.

Germany and Austria.

BERLIN, Aug. 28.—The Prussian *Cross Gazette* confirms the report that the second meeting of the German and Austrian Emperors has been arranged, and states that it will probably take place September 7th at Salsburg. The Emperor Francis Joseph will be accompanied by Von Beust to confirm the basis laid at Gastein for relations whereby Germany and Austria are to assume a joint attitude. Italy has unconditionally agreed to the same policy, and communications have passed between the governments looking to the establishment of a complete understanding.

French Affairs.

PARIS, August 28.—In the Assembly, M. Rivet, in the report of the committee appointed to consider the prolongation of Thiers' power, concludes by submitting the following decree and recommending its adoption:

"The Assembly, considering itself entitled to constituent powers which have not been exercised hitherto solely from force of circumstances, and considering that meanwhile the relative state of existing institutions require it, decree: First, that Thiers takes the title of President and continues to exercise his executive powers under authority of the Assembly. Second, that the President promulgate and ensure the execution of the laws passed by the Assembly; that he reside at the seat of Assembly; that he participate in its deliberation on giving notice of his intention to do so, and that he appoint or dismiss ministers and be responsible to the Assembly for his acts."

Dufaure declared that the decree lacked expression of confidence in Thiers, and moved that it be amended by the addition of a eulogistic paragraph. After a scene of great excitement, the debate on the Committee's report, placed for Wednesday, reported that the committee had previously considered and rejected Dufaure's amendment. The situation is critical.

Aquatic Sports.

HALIFAX, Aug. 29.—All the crews are now here. The great oared race comes off on the 10th October. With the exception of Prior all the crews want smooth water. Prior's boat being larger than the rest they have an advantage in rough water. The Taylor-Winship crew is the favorite. The Paris crew is rather a favorite, but Americans are freely backing American crews, who are rowing well. There is a good deal of betting on Paris, with the reservation, however, that if this crew does not start owing to rough water bets will be off.

ST. JOHNS, Aug. 28.—It is understood that the Paris crew will not row in the Halifax regatta unless the water is smooth.

From the San Francisco *Bulletin*: Some of the Democratic papers are talking of what they call "the San Francisco Republican split." There is no such "split," only a sliver in the fingers of those who tried to make one. The Stratman-Pixley-Bryant movement is only a Democratic raid in the rear, but it is a *fiasco*, despite the financial and moral encouragement of the New Departurists. It has excited no feeling among Republicans, except one of contempt for the selfish politicians who fancied they were stronger than public sentiment, and foolishly dreamed a great community could be distracted from attention to its own interests by a whining display of private grievances.

LAST NIGHT'S DISPATCHES.

(SPECIAL DISPATCHES TO THE OREGONIAN.)

EASTERN STATES.

New York City Affairs.

NEW YORK, Aug. 29.—The Joint Committee of the Board of Supervisors and Board of Aldermen to investigate the financial status of the city, at a meeting yesterday designated sixteen gentlemen to be associated with the Investigation Committee. The gentlemen named were Robert Lenox, J. H. Kennedy, Royal A. Phelps, H. B. Claflin, Judge Porter, James Brown, of Brown Bros., Wm. E. Dodge, Jr., and Courtland Palmer.

Arctic Explorations.

NEW YORK, August 29.—A special from St. Johns, N. B., announces the return there from Greenland of the U. S. ship *Congress*, she having made a voyage of 2,500 miles to Disco, latitude 70 degrees, in less than 13 running days. The *Congress* left St. Johns, August 3d, and anchored at Disco on the 20th. On the trip she passed hundreds of immense icebergs but encountered no pack ice. The season is very open, not unlike many in New York. On the advance trip daybreak was perpetual. The sun sank below the horizon but for a short time, and twilight was sufficient to read by. The Aurora Borealis was extremely grand. Meteoric light formed magnificent arches, columns, scrolls and spiral stairways.

The *Polaris*, with Capt. Hall's party, was found at Disco in good spirits and hopeful of the enterprise.

A regular summer was found at Greenland. Flowers were blooming, brooklets flowing and birds singing. In going to the big glacier, the perspiration rolled off like rain drops.

A cheerful reception was accorded by the Danish authorities.

WASHINGTON CITY.

More About the Polar Expedition.

WASHINGTON, Aug. 29.—Capt. Davenport, of the steamer *Congress*, reports this morning to the Navy Department from St. Johns, N. B., his return from Greenland. The *Congress* arrived at Disco, August 10th, seven days from St. Johns, and 15 days from New York. The arctic steamer *Polaris*, which sailed from New London, Conn., August 13d, arrived at Disco only seven days in advance of the *Congress*. Her cargo of coal, provisions, etc., was safely transferred from the *Congress* to the *Polaris*, and the latter sailed Polaward on the afternoon of August 17th, with bright prospects of an open season. The *Congress* left Disco on August 19th, her voyage having been accomplished and instructions fully executed. The *Colonial* may be expected at Boston Tuesday.

Dr. Livingstone's Whereabouts—English Affairs.

LONDON, August 29.—The British Consul at Zanzibar writes that Dr. Livingstone, the African discoverer, is slowly making his way homeward.

The *Standard* states that Mr. Guerney, English Commissioner under the Treaty of Washington, receives no compensation.

The steamship *Prussian* from Quebec, ran down and sunk the steamer *Aber*. It is believed all are safe. The steamers *City of London*, *Ocean*, *Algeria*, and *Assyria*, from New York, and the *Ohio* from Baltimore, have all arrived out.

The Infallible Pope.

NEW YORK, Aug. 29.—Foreign advices report the Pope as having recently spoken as follows concerning the course of the Prussian Government toward German Catholics: "I had expected that German Catholics would be treated with greater justice. I do not conceal from you that I hoped so able a diplomatist as Prince Bismarck would not have provoked discord in the New Empire. All wars that have been undertaken against the church have resulted in her ultimate gain. They have always reinforced her, have made her members more compact and have fortified them in their faith."

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 28.—The weather is still very warm.

The fog is so thick that nothing can be seen from the Heads.

The steamer has not arrived, but is probably outside.

B. C. Whiting, Indian Agent for California, will leave for the localities of the Indian troubles in Southern California by the steamer of Thursday.

It is now pretty certain that Geo. Critcher, the missing curbstone broker, has gone to the springs. Various stock brokers are "out" through him to the aggregate of $50,000. It is supposed that the money was lost on street operations.

SAN FRANCISCO, August 29.—Some of the City Hall lot purchasers have determined to pay the entire amount of purchase money down and take deeds at once, preferring doing so to paying 10 per cent. interest on three-fourths of the amount.

There is likely to be trouble about the new City Hall after all. The act creating the commission under which the lots were sold, provides that the funds for the new hall must come from the sale of lots and interest, no other source of supply being provided, and that the lowest estimate for the hall is fifteen hundred thousand dollars, while nobody believes that it can be finished for less than two millions, if for that. The amount realized from the sale will not half build the new hall, after paying salaries and other expenses; and some parties threaten to enjoin the Commissioners, should they go on with the building, from running the city in debt after the funds are exhausted.

The increase of names on the poll lists this year over last is 3,910. The larger portion of this is believed to be owing to the fact that names of deceased parties and those who have moved away have never been stricken off. The actual voting population of San Francisco is probably not larger than a year since.

This afternoon, on the arrival of the steamer *Constantine*, from Portland, the driver of the Russ House carriage climbed up the side and got on board the moment she touched the wharf. He was ordered off by a sailor under direction of the Captain, and an altercation ensuing, the sailor seized a handspike and struck him a blow on the head, laying open the scalp to the skull and seriously injuring him. The affair created much excitement at the wharf.

The young man, Wm. Mizner, who was claimed to have been robbed and nearly murdered by highwaymen in the southern part of the city last week, is ascertained to have been playing possum, having spent the money which belonged to his employers in the city.

George Trent (colored), late porter at the postoffice in this city, arrested for robbing the mails, was examined to-day and held to answer. He was committed to jail in default of bail.

H. Dorsey Gough commenced a suit against the *Alta* to-day for $50,000 damages for libel in an article headed "History of a Sword," in yesterday's issue. It is said Chas. Gough was mentioned in the article, but the names were confounded by the reporter. A somewhat similar case occurred here a few years since, in which the paper charged a physician with murder and was sued the next day for $50,000, and explained the following day that it meant his brother, whereupon the brother also sued for the same amount.

D. Leon Suckert a well-known native Prussian Poland resident here since 1848, was found dead in his room, corner Pine and Kearney, this afternoon, having died suddenly from an attack of appoplexy. He was in his night-dress and lying on the bed. He is supposed to have died in the night. He was 48 years old, a widower, has a daughter married in Oakland, and a son in college in Europe.

The Republicans are having a large meeting in the Union Hall this evening, being addressed by ex-Vice President Hamlin, Senator Nye and others.

The fog has not lifted for two days. Nothing is known as to what may be outside.

WEDNESDAY MORNING, AUGUST 30, 1871.

Growth of Portland.

The unprecedented increase of building in Portland this season strikes with astonishment all who visit the city. Even those of our own citizens who take only an occasional look about the city are surprised to find that buildings have risen as by magic in localities which, when last visited showed no sign of improvement. Such growth Portland never witnessed before. At no former time in the history of Portland were there one-fourth as many elegant dwellings in course of erection as may be seen now through all the western part of the city. Street improvements keep pace with the erection of buildings, and in all directions the work is going on. From the beginning, the growth of Portland has been uninterrupted and steady, but this year it surpasses that of any two or three years in its history. This fact is strikingly apparent to all who look through and about the city. Activity is everywhere manifest; buildings rise in all parts "like an exhalation," and the work shows no sign of abatement. Lumber it is almost impossible to obtain, so great is the demand, and the brickyards are working to their fullest capacity. Notwithstanding the erection of so great a number of houses during the past few months, there are no vacant dwellings in the city, and before buildings are half completed, applications are received from those desiring to rent them. These facts show what progress Portland is making this year in growth and prosperity.

The Old Dreary Tune of "Centralization."

The *Herald*, which belongs to the party that recently tried to "obliterate" the General Government, is now maundering about the "centralization of Radicalism," and asserting that the present tendency of things under the Republican regime, is to "obliterate" the States. We quote a short extract from a long article of dreary Democratic absurdity:

> Suppose State lines practically obliterated, and the Central Government supreme, as it will certainly become if the present tendency be not arrested. What then? Why, instead of being States, we shall become outlying provinces; the Central Executive will be, as he was in Rome after centralization there, an Emperor; and he will appoint such Governors, pro-consular agents or satraps, as shall be willing to carry out the imperial will.

"Suppose State lines obliterated"; what then? Suppose the skies fall; what a harvest of larks we should gather. The American people have simply resolved that the States of the Union shall not set themselves above the authority of the Union itself. Once a part of the States attempted this, and the Democratic party connived at and encouraged the attempt. A bloody and desolating war was the result. The country wants no more experience of this kind. Hence the American people have determined to assert and maintain the authority of the General Government as paramount to State authority. In this the Republican party represents the political convictions and deliberate purposes of the people. But though they have resolved this they have not thought for a moment of trying to "obliterate" the States, as the Democratic party tried to "obliterate" the General Government. They merely intend to confine State authority within its legitimate and subordinate sphere. "Centralization" is a bugbear to frighten Democratic weaklings. It is the stock in trade of small Democratic politicians, who retail this when everything else fails them. If it is supposed that such dreary stuff will vitalize the Democratic party, that such ridiculous croakings will alarm the country and cause the people to vote into power those who but just attempted to "obliterate" the nationality of the United States, the supposition stands considerable chance to fail of realization.

A Talking Machine.

Inventions and improvements in machinery are becoming so common, that we hardly get time to chronicle the advent of one, ere another comes up for a notice. Some are very useful, others ornamental, and some are neither. The latest novelty is the invention of a machine for talking. May Heaven protect us now! Talking is already indulged in by too many machines endowed with animal life. In London there is now on exhibition a talking machine, which by ingenious mechanical contrivances is made to give forth utterances similar to the human voice. It is the invention of Professor Faber, of Vienna. The machine has a mouth, tongue and lips, which are set in motion by a mechanical apparatus, which sets free a portion of air from a large bellows, and so controls it as to produce the sounds required. It pronounces clearly every word required, sings, laughs, and gives expression to various utterances of the human voice. The machine illustrates very minutely the science of acoustics, and is also a subject of great interest, as showing how far inventions may be carried. It, however, can never be of any great utility.

We find the above in an exchange. Despite what is said in the last sentence, we think the machine could be made to possess the greatest utility, and for instance, it could easily be adjusted, so as to make domestic speeches of the first class. Gov. Grover never made a speech on the "Chinese question," that this machine couldn't equal; that we'll warrant. And without getting tired. If this machine is rightly managed, it can doubtless be made to do the work of your Democratic demagogue, with the greatest ease.

An item on real estate by a local reporter, published in this paper yesterday, was singularly erroneous in all its principal statements. The reporter could have written as he did only upon the grossest misinformation. Contrary to what was there stated, it is a fact that there is no unfavorable "reaction" in real estate in this city, or any thing like such reaction. Transactions continue fair and prices are well maintained. It so happened that the item alluded to did not pass under our inspection before it appeared, and we are not a little annoyed that the OREGONIAN was the vehicle of so erroneous a statement and so gross a blunder.

To-day we have another chapter of horrors. A steamboat is blown up at Mobile, and the waters there reddened with the blood of victims. Only yesterday we had the record of a railroad massacre near Boston, and it has been but a short time since the horrible explosion of the *Westfield* at New York. Truly it is time that something were done to compel men who carry passengers by steam to be more careful of human life. It is impossible that such a series of disasters should occur without gross, criminal carelessness.

The election in California will take place one week from to-day (Wednesday). The principal journals and most of the energy and enthusiasm are on the Republican side. Democrats, who are usually fond of the vulgar argument of betting, refuse to stake anything on Haight unless odds are given them. All the signs are propitious for a Republican triumph, and we should be perfectly sure of victory were not California proverbially an uncertain State.

An Admirable Speech.

A splendid speech was delivered a few days ago at Saratoga by Speaker Blaine. The speech was brief, but so much matter has rarely been packed into so small a space. The comparison between the results of Republican rule at Washington and Democratic rule in New York is drawn with great clearness and cogency, and is worthy of careful reading. The whole story is summed up in the following paragraph:

> The Republicans are in full power at Washington; the Democrats bear undisputed sway in New York; need I draw the picture which this brace of facts suggests to every intelligent mind? In Washington every dollar that can be saved above current expenses is faithfully applied to the reduction of the national debt. In New York every dollar that can be raised or wrung from the groaning tax payers above the current expenses is faithfully applied to the benefit of a private ring of political speculators. In Washington we have witnessed with amazement and admiration the payment of our national debt at the rate of one hundred millions per annum. In New York we have seen with consternation and alarm the increase of the municipal debt at such a rate as would involve at no long period the bankruptcy and ruin of even that great metropolis, with its immense resources and fabulous wealth. It seems but yesterday that Gen. Grant was inaugurated, and yet in the brief period that has since elapsed two hundred and fifty millions of our debt have been paid, a sum equal to more than one-eighth of our bonded debt as it exists at this hour—and this payment, be it remembered, has been made while taxes were repealed that were yielding eighty millions per annum when Gen. Grant came into power. Look at New York City during the same period. Its bonded debt increased to such a mammoth extent that the authorities dare not confess the actual amount. Tax levies are all the while heaped up beyond the imagination of honest men, and a scale of corrupt expenditures maintained that challenges the credulity even of those who are best acquainted with the audacity of Tammany Hall.

This is admirably put. What follows is put with equal directness and force:

> Without the aid and leadership of Tammany it would be impossible for the Democrats to carry the State of New York, and without the State of New York their chances in the Presidential contest of 1872 is not worth reckoning, and they well know it. I go further, gentlemen, and aver that the power of Tammany with its money in the North, and the power of terrorism in the South are the weapons relied upon by the Democratic leaders to carry the national contest next year, and if it were not for this we should have to-day absolute peace throughout the length and breadth of the land. Why, I ask, is there not as much supremacy of the law, as much civil order, as thorough protection of life and property in the South to-day as there is in the North? Why is there more disturbance between the Potomac and the Rio Grande than there is between the Potomac and St. Lawrence? I answer, simply because it is not the interest of the Democratic party to have it so. I answer, simply because it is the interest of the Democratic party that such a condition of affairs shall be maintained in the South as shall prevent a fair, full, unrestrained vote of the whole people.

Proceeding with his speech Mr. Blain remarked that the list of Democratic offences was not yet exhausted. Then followed this argument:

> Responsible for the continued disorder in the South, their recent conduct in the city of New York threatens that most dangerous of all political excitements—a war of class and of creeds. This Government is based on the absolute toleration of all forms of religious beliefs—Protestant and Catholic, Jew and Gentile—and whoever aims to strike a blow at the rights of one imperils thereby the rights of all. The same article in the Federal Constitution, which guarantees freedom of religious belief, guarantees the right of the people "peaceably to assemble," and when the Democratic Government of the city of New York undertook to say that a certain procession of Protestants should not march through the streets of the American metropolis, they were false to the first principles of religious freedom—they aimed a deadly blow at the spirit of American liberty. Protestant myself, I stand for the rights of all, and while I concede the fullest right of the Catholic Irish to celebrate St. Patrick's Day, I demand the equal right of the Protestant Irish to celebrate the Battle of the Boyne. The spirit of religious liberty, which is fully enjoyed on the 17th of March, must be held equally sacred on the 12th day of July. Over against the shortcomings of the Democracy the Republican party stands strong and firm, panoplied in the right. "Its ways are ways of pleasantness, and all its paths are peace." In our domestic policy we declare for the equal rights of all men before the law—knowing no caste, no creed, no color, but only and simply the inalienable and indestructible rights of American citizenship as proclaimed in the Declaration of Independence and decreed in the Constitution of the United States, as it now is. For until the 13th, 14th and 15th Amendments were adopted, the Federal Constitution did not embody the doctrine of human rights, as set forth in the immortal declaration.

After an allusion to the satisfactory settlement effected between our country and Great Britain—a settlement by which a "powerful nation is not only led to do us justice in the matter of debts and dues, but in that less palpable but more enduring reparation which by acknowledging error removes the source of irritation and gracefully heals the wounds of pride"—and claiming this settlement as "the highest honor of the Administration," the speaker concluded, summing up with these lucid statements:

> Were I to claim your attention while I recited the achievements of the Republican party during the period of its national power, the night itself would give place to day before I could finish. I point you to a continent untrodden to-day by the foot of a slave; I point you to a Constitution rounded and perfected in all the elements of civil rights and personal liberty; I point you to a credit and currency that bore us triumphantly through the severest of wars, and have assured to us the amplest prosperity in time of peace; I point you to a nation of forty millions of people—the freest, the happiest, the most prosperous on the globe; and finally, I point you to the fact that the policies and measures which commanded these great results were the policies and measures of the Republican party.

This excellent speech has attracted wide attention. If any person has fears that the Republican party cannot stand on its record, as against the Democratic party, we advise him to consider and digest the contents of this speech, whose substance we have above given.

Of defaulting internal revenue collectors, forty were appointees of President Johnson, and but three were appointees of President Grant. The former, who were all appointed in the interest of the Democratic party, embezzled $1,745,427, while the embezzlements of the latter foot up $64,581.

THE TERRITORIES.

Toole, Democratic candidate for Congress in Montana, is a new departure man, which is given as one cause of his defeat.

Two miners named Thomas Stiles and James Graves, near Helena, Montana, got into an altercation a few days ago, when the former shot and killed the latter.

Walla Walla papers state that a number of leading citizens of that place are opposed to the $300,000 subsidy. It takes a three-fourths vote to carry the proposition.

A Walla Walla paper says there are many persons in that valley who wish to purchase cattle, but few who wish to sell. Cows with calves sell from $40 to $50; yearlings at about $20.

From the Walla Walla *Statesman*: For several weeks past our millers and merchants have been buying wheat freely, paying sixty cents a bushel. Most of this wheat was bought for shipment below, but owing to the scarcity of teams to convey it to the river, the market has been glutted and buyers have drawn off.

The Republicans of North Carolina are expressing their gratification at the defeat of the Democracy in the late election, by giving barbacues throughout the State. Few persons in this latitude can realize what these people have escaped.

Mr. Brunot Declines.

A Washington dispatch of the 17th August gives this:

Mr. Brunot has informed the President through the Secretary of the Interior, that he cannot accept the position of Indian Commissioner. He has complete confidence in the determination of the President to break up fraudulent dealings with the Indians, and confidence in the Indian policy, and regrets that circumstances will not permit his accepting the appointment. It was considered doubtful from the first, that Mr. Brunot would accept the Commissionership, but his refusal is none the less a disappointment. There is hardly any probability that he can be prevailed upon to change his decision, on his return here, though efforts to induce him to may be made.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON Co., OREGON,
July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past *twelve years*; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Unk Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend, and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA, CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

R. F. DANFORTH'S

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabric.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light, than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same height of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

H. H. PEARSON,

Late of the Russ House,

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st. au7d2m2p

CITY.

AN OLD VETERAN.—This country is not only productive of handsome women and healthy children—to borrow an expression from Joe Lane—but it is also prolific of some remarkable climatic effects on old men. We learn that an old gentleman residing in Douglas county, near Roseburg, named Burt, is a notable instance of the salubrity and youth-imparting tendency of our climate. This old veteran was born in the Granite State, near Walpole, in the year 1783, and is, consequently, in his 89th year. He came to Oregon with his wife over 18 years ago, and was then 70 years old. He traveled "over the plains across" with his ox team, that being long years before the railroad was commenced and was only vaguely looked forward to as an enterprise to be achieved many years away. During the "little unpleasantness" between Johnny Bull and Brother Jonathan in 1812-14, he applied for enlistment at the commencement of hostilities, but was rejected on the grounds of physical disabilities. For the last four years past he has been residing upon and cultivating a homestead on which he recently applied at the Land Office to make final proof. He has been an ardent supporter of the Union, like most of the old veterans, and is a staunch Republican now; writes a legible hand and can read without spectacles. He bids fair to reach the "century mile stake."

SHOT BY ACCIDENT.—The *Herald* learns by a private letter of the following accidental shooting of a man in Washington county: A party composed of Messrs. I. B. Doherty, James Imbrie, Jr., and J. Stephens were out hunting elk five miles north of Glencoe, Washington county, on Saturday last. The party became separated in the hunt, and the woods being very smoky, it was a difficult matter to distinguish a man from a beast for any considerable distance, consequently Mr. Imbrie, who was on the track of a bear, raised his gun and fired upon what he took to be one, but which, unfortunately, proved to be one of the party, Mr. Stephens. The ball, which was thrown from a breech-loading Spencer rifle, entered the neck at the posterior border of the *sterno-mastoid* muscle, grazed the spinus process of the third cervical vertebra, and made its exit on the opposite side of the neck, inflicting a dangerous wound. Dr. F. A. Bailey was called and dressed the wound. The wounded man is doing as well as can be expected.

FLANDERS' NEW WHARF.—Pile driving was commenced on the new wharf of Capt. Flanders yesterday afternoon. The old and decayed piles, which have so long supported the wharf, will be cut away as rapidly as new piles are driven. The proposed dock will extend from the lower end of the People's Transportation Company's wharf to where the second story of the dock commences, to the rear of Allen & Lewis' store. The length will be 210 feet. It is the intention of Capt. Flanders to make the wharf two stories in height all the way along, so that vessels can unload or receive cargo at any stage of the water.

EXEMPT FIREMEN.—A meeting of all the exempt firemen of the city was held last evening at the Police Court Room. The object of the meeting was to effect the organization of a company all composed of exempt firemen, and to accept the invitation tendered, to participate in the Firemen's Parade. The meeting was temporarily organized by choosing Wm. B. Clark, of Columbian Engine No. 3, President, pro tem., and J. J. Meagher, of Willamette No. 1, Secretary pro tem. The meeting then adjourned to meet again this evening at the Police Court Room. All exempt firemen are requested to attend.

LIBRARY DESTROYED.—We learn that among the unfortunate sufferers by the recent calamitous fire at the Dalles, was Judge L. L. McArthur. His valuable law and literary libraries, with the exception of thirty-nine volumes, were entirely consumed. He had, only a few months since, received from San Francisco, 150 new volumes, not one of which were saved. Only a few articles of clothing and some official papers were rescued from his office. All his private papers were destroyed, and among them a historical sketch of the settlement of Eastern Oregon, which he intended to publish this fall.

A SUPERB MAP.—A most superb map of the cities of Portland and East Portland has been laid on our table. It was published by Messrs. Russell, Ferry & Woodward, Real Estate Dealers in this city. The map was drawn by W. F. Brown, one of the clerks connected with that office. A. L. Bancroft & Co., of San Francisco, were the lithographers. In size it is about 24x24 inches. This map is one of the best which we have yet seen; presenting an accurate and comprehensive view of the cities on both sides of the river. We most heartily commend it to the public for general use.

TESTING.—Prof. G. H. Collier is now testing the chemical and mineral properties of a calybeate spring on the east side of the river. This spring is situated on the farm of Washington Allen, about one mile and a half from East Portland. It is, however, within the city limits. From the partial test made of the water, it is probably one of the finest springs of the kind on the coast. The water is so strongly tinctured with iron, that everything over which it flows is coated with that metal. It is also impregnated with magnesia and silica.

SMALL POX.—Intelligence has reached this city that this loathesome scourge has appeared in Walla Walla. Several cases have been reported. The disease has been raging among the Chinese miners about Oro Fino during the past season. The contagion has no doubt been communicated by passing packers. Vaccine matter has been sent for to this city by the physicians of Walla Walla. Unless the utmost caution is observed, we shall expect to hear of the epidemic reaching Portland. No precaution should be spared.

NUMBER OF HOUSES.—Since last spring up to the present writing, there have been constructed and, in process of erection within the city limits of Portland, about 300 houses; dwelling houses, store-buildings, etc. This, for one season, indicates a healthful degree of prosperity.

CLEARING OUT.—The rubbish has been cleared away from the ruins of the old wooden tenement at the rear of L. White & Co's place of business, and fronting on First street. The foundation has been excavated and preparations completed for the erection of a new building.

REMANDED TO JAIL.—William Daley was examined yesterday before Justice J. A. Newell of East Portland on the charge of the murder of Richard Storten, on Sunday night. He was remanded to jail to await the action of the Grand Jury.

FINE WHEAT.—We were shown some fine samples of wheat by Mr. O. S. Phelps of this city. It is fall white wheat and was raised on the North Yamhill river. We have rarely seen finer; larger or more plump grains.

NEARLY CEASED.—The fire west of the city has nearly ceased to burn among the timber. Up to the present writing no more damage has been caused except that enumerated in yesterday morning's issue.

AT THE DALLES.—Hon. J. F. Caples, of this city, is at the Dalles engaged in defending John Emerick, charged with the murder of a man named Mounts.

MEMBERSHIP.—The newly organized Turn Verein Society in Portland, numbers 46 members. The old Congregational church will soon be fitted up for a hall.

RUNAWAY.—A runaway occurred up street a few days since, in which a small boy of Mr. Holman was thrown out and severely hurt.

IDAHO.—The steamship *Idaho* sailed from San Francisco on last Friday. She will be due here some time to-day.

BRICK WOODSHED.—A large brick woodshed is in process of construction to the rear of Columbian Engine No. 3.

BARK ORIENT.—This bark is now on her way to this port from San Francisco. She sailed about two weeks ago.

PARADE.—The firemen's parade will take place in this city next Monday, the 4th of September.

WILL CONVENE.—The United States Circuit Court will convene on Saturday, September 2d.

B. F. UNDERWOOD.—This noted lecturer on "Free Thought," is lecturing at Eugene City.

LAUNCHED.—A new yacht of five or six tons burden was launched at East Portland.

LETTER FROM CHIEF ENGINEER HOLMAN.

TO THE EDITOR OF THE OREGONIAN:

SIR: In looking over the columns of your paper yesterday, I see that in speaking of the fire in Carter's Addition, you say that Chief Engineer Holman refused to let an engine go out, when it was sent in for. Now, Mr. Editor, for information to the public, I wish to give my reasons for not sending out an engine. In the first place, if I had let one, or even two of the engines go out, there would not have been sufficient hose to reach any of the buildings that were in danger; and as for letting all the engines go out, that I would not allow, as in case of fire in the city, there would be nothing to protect it; and in the second place, there was not more than enough water in the creek to charge an engine, let alone work. Mr. Gallagher, Foreman of No. 4, Mr. Wilcox, a member of same company, and myself, went out to the fire long before an engine was sent in for, to see if there was any property in danger, and if so—if there was any water in the neighborhood, so as to be able to render them any assistance if needed. The nearest water we could use was in a dam in the creek, and that held but a few barrels, and the supplies not enough to work a garden engine. The next nearest was the Canyon Garden, and that we measured and found that there was eighteen inches of water—not more than enough to cover the basket of one of the sections, and then it would take all the hose in the Department to reach the fire. I told one of the property-holders whilst I was there, to get the brush cut away from around his building, so that if the brush should take fire, his building would not be in so much danger. He did not seem willing to put himself to so much trouble, but said that the city was responsible if it burned down. He would like the firemen to do all the work, whilst he stood quietly by looking on—and that is the case with a great many more. I also wish to state that there is not a building damaged by the fire of last night.

Hoping this will satisfy the public mind as to my reasons for the refusal, I beg the insertion of this card of explanations.

Yours, respectfully,

ROBERT HOLMAN,
Chief Engineer.

PORTLAND, August 29, 1871.

AMUSEMENTS.

THE ENTERTAINMENT.—Mr. Stephen Massett gave an entertainment at Oro Fino Theater last evening. The house was crowded to overflowing by a refined and intelligent audience. This protean gentleman acquitted himself in a manner creditable to himself and worthy the reputation he sustains. We believe that no one in the large audience failed to realize their expectations concerning the entertainment or the entertainer. Mr. Massett's recitations of the "Vagabond" was concise and graphic; of "Wounded on the Battle Field," "Mother's Prayer," "The Death of Poor Joe," and "The Cripple's Story" were touching, pathetic, vivid and beautifully true to life. No one but Charles Dickens could have more feelingly portrayed the death bed scene of "Poor Joe" than Mr. Massett did. His ballads were not so finely rendered as they might have been, but were very passable. The fault consisted more in the execution than the natural gifts of the artist. His touch is not unartistic, and his voice is deep, liquid and mellow. The falsetto imitations of Madame Bishop were comically accurate, and were heartily applauded. Mr. Massett is much superior in the comic portions of his entertainment than in the serious. He possesses wonderful powers of mimicry, and by his facial contortions delineates comic characters very well. His stories about "New York Shoddy," "Comic Opera," "The Artificial Man," "Scene in Hongkong," "Imitation of Edwin Forrest," "The Englishman and his Eye-glass," were a succession of "good hits," and kept the house in a constant roar of laughter. "The Charge of the Light Brigade" was the crowning recitation of the evening. Mr. Massett's entertainment was an intellectual treat not often enjoyed by a Portland audience. We cannot call to mind any artist who combines in so eminent a degree the qualifications of composer, vocalist, mimic and elocutionist, who has visited this city.

RESOLUTIONS OF CONDOLENCE.

At a meeting held at Astoria, on the 26th inst., by the members of Fire Company No. 1, the following resolutions of condolence were passed:

Whereas, It has seemed good to the Almighty Disposer of events to remove from our midst, our late worthy and esteemed fellow member, Henry B. Adair; and

Whereas, The intimate relations held by the deceased with the members of this company, render it proper that we should place upon record our appreciation of his merits as a young man; therefore,

Resolved, That we deplore the loss of Henry B. Adair with deep feelings of regret, softened only by the confident hope that his spirit is with those who, having fought the good fight here, are enjoying perfect happiness in a better world.

Resolved, That we tender to his afflicted relatives our sincere condolence and our earnest sympathy in their affliction at the loss of one who was a good citizen and an upright young man.

Resolved, That the members of this Company will attend our deceased member to the grave in a body; that the engine be hung with the emblems of mourning until after the funeral ceremony shall have been performed, and that the members wear crape on the left arm for ten days.

Resolved, That a copy of the foregoing resolutions, signed by the President and certified by the Secretary, be transmitted to the relatives of the deceased and to the Portland papers for publication.

I. W. CASE, President.

Attest: J. G. MIGLES, Secretary.

THE COURTS.

U. S. DISTRICT COURT—DEADY, J.—In the matter of J. B. Halsy, in bankruptcy; order placing cause on the docket, and hearing upon the demurrer to answer set for Tuesday next.

The following proceedings were had in the United States Circuit Court on Monday:

John Bowman vs Ben Holladay et al.; demurrer to the replication of plaintiff overruled. Thayer and Gardner for plaintiff; Dolph for defendant.

PERSONAL.

Ben. Holladay, Jr., arrived in this city yesterday. He came overland from California.

Mrs. J. Blakely Frost, the authoress of a popular history of the rebellion, is in this State canvassing for the sale of her book. She is at Salem this week. Some of the leading newspapers contain commendatory notices of the work. It is said to rank well among the standard literature of the day.

FAVORABLE.—A correspondent of the *Alta* writing from this city, speaks in very complimentary terms of the metropolitan police force of Portland. The same writer suggests that the municipal authorities of San Francisco should take a hint about the uniform.

NEW ORDINANCE DEMANDED.—A city paper requests the City Council to pass an ordinance restraining persons from throwing apple and orange peelings on the sidewalks. A few laws well observed are better than a multitude lightly regarded.

PARTED.—The iron cable used in propelling the new ferry boat of Jos. Knott, parted yesterday, owing to the strain brought to bear upon it. The old ferry will accommodate the public until the damage can be repaired.

RESIGNED.—The acting Secretary of the Willamette Iron Works, Mr. Morse, resigned his position on Monday. The vacancy is filled by Maj. P. Fitzehogen.

FOR THE SOUND.—Mrs. Carrie F. Young will start on a tour for the Sound in a few days. She will lecture at St. Helens and Astoria and at many other points.

ORIFLAMME.—We understand that this steamship will sail for this port to-day.

BUSINESS NOTICES.

REAL ESTATE.—Parties who wish to make advantageous bargains should attend the sale this morning at the rooms of A. B. Richardson.

SCHAEDEN & BROWN of Vancouver are offering desirable Town Lots in that place for $65, for a few days only.

DR. ABORN.—This medical gentleman will remain in Portland until the 11th of September. He has effected the cure of a gentleman from one of the counties up the valley, of an obstinate case of sore eyes. He restored the eyes in six days from the time of commencing medical treatment.

SCHOOL OPENING.—Mrs. Mary Simmons' Private School, corner Third and Main streets, will open Monday, 21st inst. Pupils will be taken during the term.

Vichy Water are curative in Gravel, Stone, Vesical Catarrh, Affections of the Intestinal Tube, Liver, Spleen, Hepatic Colic, Paludal Cachexia, Albuminera, Chlorosis, etc., and most soothing and preventive in Gout, Rheumatism, Rheumatic Gout, Diabetis, etc. For sale at C. H. Woodard & Co.'s Drug Store, Front Street, Portland.

WILLAMETTE UNIVERSITY, SALEM.—The next Term will begin Monday, Sept. 11, 1871. For full information address T. M. GATCH, President.

TO CARPENTERS AND BUILDERS.—G. H. Hibbard & Co., have on hand and for sale at very reasonable prices, a large lot of Doors, Blinds and Windows of the best quality. They also have a fine lot of Machine Oils, Wagon Timber, Flour and Family Groceries. Persons wishing the above articles will do well to give them a call, corner of Alder and Front streets.

CURE FOR COUGH OR COLD.—As soon as there is the slightest uneasiness of the Chest, with difficulty of breathing, or indications of Cough, take during the day a few "BROWN'S BRONCHIAL TROCHES." Containing demulcent ingredients, they allay Pulmonary Irritation. Have them in readiness upon the first appearance of a Cold or Cough.

Wilted Down.

Ask the man who complains of "wilting down" in torrid weather what he has done to sustain his system under the extra strain imposed on his vitality. He may tell you that he has tried a variety of cathartics to purify his blood and brighten his spirits. Under such treatment, of course, his strength has given way, and his energies have become exhausted. What he requires is a restorative, not a depletant. His blood is thin, his nerves have lost their natural tension, and nature demands to be renovated and reinforced. The means is within the reach of all. For nearly a score of years, Hostetter's Stomach Bitters have been building up broken constitutions, strengthening attenuated frames, and affording comfort, ease, and hope to thousands. As a preventive of the epidemics which make such havoc with the health of the inhabitants of new settlements, this famous tonic is certainly without a rival. Perhaps the principal portion of its world-wide fame is attributable to its astonishing cures of dyspepsia, and all forms of indigestion. But these are not a moiety of its triumphs. All the types of billiousness yield to its persistent use. It is a regulating medicine of the highest order; and its effect upon the secretions, when irregular, are most salutary.

Imposition of the grossest character is sought to be practiced upon the community by vendors, who recommend under the name of "bitters," fiery compounds of a dangerous character, which they attempt to substitute for the great national tonic. Shun all such nostrums, and see that you have the genuine Hostetter's Stomach Bitters, properly authenticated by label, name and stamp, and sold in bottles only.

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant, filing in this office a claim in the form proscribed, to-wit:

Pre-emption, date, No. ——.

To the Land agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, NO. ——.

This is to certify that of county, State of Oregon, has this day filed in this office a preemption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed) Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual installments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issued, upon payment in full.

Blank forms of application furnished upon request.

"Through tickets to go around the world" are for sale in London for $1,250. But why go around when your ticket entitles you to go through?

A Richmond paper makes the remark that "it matters not in what condition a man may be placed, provision is made for his assistance, if he can get to it."

"Where do you hail from?" queried a Yankee of a traveller. "Where do you rain from?" "Don't rain at all," said the astonished Jonathan. "Neither do I hail, so mind your own business."

A suit is pending at Jacksonville, Ill., with nine parties on one side and several on the other, to get possession of an $800,000 diamond, which has been a family heirloom the past century.

Vanity of vanities—Ingenuous youth (whispers): "I see you constantly stand on one leg in church. May I ask why?" Ingenuous maiden (whispers): "You may. It is to save my croquet foot."

A Kentucky man unites the avocations of blacksmith and barber. In moments of abstraction he uses a man's face as an anvil and the razor as a hammer. This treatment wears out the anvil rapidly.

A stranger meeting a man in the streets of Boston, a few days since, roughly accosted him with, "Here, I want to go to the Tremont House!" The deliberate reply was, "Well, you can go, if you won't be gone long."

Some arithmetician discovers that the French war indemnity of $1,000,000,000 would in five dollar gold pieces, cover more than nineteen acres of ground used as paving. It would take one man 22 years to count them, at the rate of 100 a minute for twelve hours a day.

Gray's Harbor and [illegible] Bay carry on a large direct trade with San Francisco by means of sail vessels. Mr. Holladay dispatches, on Sunday, the [illegible] *Gussie Telfair* to Gray's Harbor, for the purpose of learning if direct trade between those places and Portland cannot be inaugurated by steamer, and if practicable, the intention is to establish a regular line. The *George S. Wright*, owing to a full cargo received for Victoria, was unable to take any freight offering for Sound ports. But the *Gussie Telfair* will receive freight for Sound ports immediately upon her return from Gray's Harbor.

To Hon. Thomas Frazar, Internal Revenue Assessor, we are indebted for the following Internal Revenue statistics for the District of Oregon during the period of six months ending June 30th, 1871: Amount of revenue taxes [illegible] of this amount $27,705 was derived from income for the year 1870. Amount of wines and distilled spirits sold at wholesale during [illegible] $160,600. The quantity of distilled spirits in the District of Oregon on the 1st day of May, 1871, not in bonded warehouse, was—

Total	50,7[illegible]

Amount of tobacco and cigars sold, $161,200. Amount lager beer and ale sold, manufactured in the District of Oregon, [illegible] was 4,[illegible] barrels, the revenue tax on which is $1 per barrel [illegible] and is not included in the above amount. The number of feet of [illegible] in the District of Oregon during the above period was 4,025,000 feet. The monthly average of bank capital employed is $[illegible],000. The monthly average of deposits in banks is $1,654,499.

The production of beet root sugar is assuming large proportions in Europe, and the time is not far distant when it will supersede the cane, and the cultivation of the cane looked upon as of secondary importance. The commencement of the cultivation of the sugar beet root in Germany is, comparatively, but a few years since. To [illegible] and Austria, owing to the success attending its culture in Germany, it rapidly spread. Its production continued to increase until in 1868 it aggregated [illegible] tons, equalling the highest production of cane in Cuba; in 1869, 658,294 tons; in 1870, 641,208 tons, and in 1871, 740,000 tons. Such has been the success of its cultivation in the nations above named, as to [illegible] beet root sugar company, to be organized in England with a capital $1,000,000. The demand in Europe for cane has lessened very perceptibly, and will each year it will be still further decreased. The sugar made from beet root—which we have seen—compares favorably with any produced from cane. Oregon's climate is peculiarly adapted to the cultivation of beet roots, though in many localities, as in all countries, the soil is not suited to it; but in the majority of the valleys, we are informed, and more particularly in what is known as the "beaver dam land," the yield is very large indeed. The true source of wealth in nations, States or cities, is to husband and foster all productions or manufactures calculated to retain in their midst money, which would be, otherwise, sent out for the articles consumed. Let some of our leading citizens—farmers or others—obtain the beet root and try its cultivation, and if, as is thought by many, it can be largely cultivated, the means for erecting a refinery in this city would be subscribed immediately. The war in Europe interfered with the culture, to a considerable extent, of the beet root sugar in Germany and France, but in the other nations the yield is such as to make up for the short crop in Germany and France. In our remarks on sugar, in last evening's commercial article, we stated that the price of sugar has advanced in Europe. From a French circular we learn that "the late [illegible] political events have, favorably affected the commercial position of the country. As we anticipated, an immediate recovery of business has taken place, and prices of sugar, more particularly for present delivery, have advanced. It is generally assumed that increased duties [illegible] with consumption, and it is possible that the taxes now imposed in consequence of the late war, may have a temporary effect on the sugar trade; but considering that this article is mainly used in this country by the upper and middling classes, we do not believe that any moderate additional impost, such as ½d per lb, will be felt in such a degree as materially to check consumption. The great decrease, so far, in the importations of cane sugar to Europe, especially to this country, and the probability of short supplies this year, not only from Cuba, but also from our own and foreign Colonies, must ultimately have a material influence on French markets, by forcing the British refiner to supply his wants from beet sugar, and it is important to notice that the reduction in the stocks in Great Britain is already nearly 500,000 tons, as compared with last year."

Merchandise Report.

WHEAT—The market is not so excited to-day, as the general feeling among buyers appears to be that all over $2 35 per cental in San Francisco cannot long be sustained. Many farmers in California are forced to buy seed wheat, and a larger number of acres of land will be put under cultivation this year than ever before in that State, owing to the vast system of irrigation which will be, if not now, completed by next spring. These farmers are probably large purchasers of extra choice wheat for seed, and to obtain it they do not stand on price. This, together with the local requirements to fill orders, under previous contract for China and Japan by millers, is the cause in some cases of such large prices being paid there. We hope to be enabled in a day or two to give fuller particulars by our mail advices. The types made us say, in the last issue, Chicago instead of China. We note sales to-day of 1,200 centals extra choice seed wheat for export to California, and 900 centals in the country for milling. We quote the market at $2@2 12½ per cental, with sacks, for fair to choice.

FLOUR—Owing to advance in wheat the demand from the trade is very active at ruling rates: standard brands, $6 50 per bbl for extra; outside brands, $6 per bbl for extra superfine, $5 50@6 per bbl.

EGGS—But few coming in; prices remain same as last quotations, 2?@30c per doz.

HAMS—Stocks on hand of ordinary country are light, with light receipts. Sugar cured are in full supply.

SHOULDERS—None in market. One firm bought all to fill orders [illegible]

OILS—Petroleum is in good supply for fall trade. Prices continue to shade off; now quotable at 46@50c, as per brand. We note sales to-day of China nut oil at current rates.

SOAP—400 bxs. B. Irving & Co.'s at 7¼@8¼c, according to quality.

RICE—We note sales of 1,200 mats, from warehouse, and 100 mats, from store, ex *Garibaldi*, at 7½@7¾c; 250 mats, ex *Goodell*, at current rates.

TIN AND IRON—Messrs. Hawley, Dodd & Co. received a private telegram from San Francisco stating: "Owing to the loss of two vessels, bound from Liverpool to San Francisco, with large assortments, that favorite sizes of tin plate and stove pipe iron were entirely out of the market." To obtain sizes to fill assortments shipments will have to be made overland, from purchases made of importers in New York, which will cause an additional advance in San Francisco and this market.

Markets.

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence [illegible] absorbed into the system! Look at their [illegible] ted and disfigured faces and their broken [illegible] tions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. [illegible] parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fœtid breath, coughs, consumption, night sweats, monomania and frequent insanity. [illegible] not obtained, should apply immediately [illegible] in person or by letter, and have a cure effected by [illegible] and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this disease by any of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of those fearful maladies [illegible] forget the sacred responsibility resting upon them [illegible] to obtain immediate relief.

DOCTOR GIBBON is ready [illegible] and will give his patients a written instrument [illegible] medical and permanent [illegible] charge

CURED AT HOME.

Persons at a distance [illegible] CURED AT HOME by addressing a letter [illegible] symptoms, length of time [illegible] and have medicines promptly [illegible] free from damage and curiosity, to any part [illegible] with full and plain directions. By inclosing Ten Dollars [illegible] letter through the Postoffice [illegible] Wells, Fargo & Co., a package of medicine [illegible] to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco [illegible] who, with bogus sworn-to certificates [illegible] Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy too work at their trades. Some are [illegible] shoemakers, newspaper carriers, [illegible] etc. Look over the San Francisco Directory and you will not find their Medical Institutes [illegible] but will find their former occupations in [illegible] the Directory for 1862 and 1863. The only way [illegible] to make inquiry—it will cost you [illegible] may save you many regrets; for, as advertising physicians in nine cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people [illegible] bogus titles, certificates, pretended [illegible] Dr. Gibbon will satisfy persons who may call [illegible] of his ability to treat diseases that he professes to cure.

Address DR. J. F. GIBBON, 623 Kearny street, near Commercial, San Francisco. Postoffice Box [illegible]

REMEMBER TO PUT BOX [illegible] ON THE LETTER.

Consultations FREE.

Correspondents will please inform [illegible] that they read his advertisement in the Daily Oregonian.

The Great Equivalent—the world may be safely challenged to produce a [illegible] simulation of anything in nature, as

TARRANT'S SELTZER APERIENT

Is of its original, the Seltzer Spring [illegible] (Germany). The Aperient, based on a correct analysis of the Seltzer Water is even superior to the manufacture of nature herself, because it contains all the active medicinal properties of the spring, unalloyed by any of [illegible] particles found in all mineral fountains. The genuine article being secured, you have the Seltzer water of Europe purified and perfected, and [illegible] the best, most genial cathartic and antibilious preparation on the face of the earth.
